40A(2)(b)

Cash System of Accounting

Cash System

- **AS 1 – accrual system**
- **ICAI – 1991 announcement**
 - **In cases where the statute governing the enterprise requires the preparation and presentation of financial statements on accrual basis but the financial statements have not been so prepared, the auditor should qualify his report.**
 - **On the other hand, where there is no statutory requirement for preparation and presentation of financial statements on accrual basis, and the financial statements have been prepared on a basis other than ‘accrual’ the auditor should describe in his audit report, the basis of accounting followed, without necessarily making it a subject matter of a qualification.**

Cash System

- **Disclosure in the audit report:**
- **“It is the policy of the enterprise to prepare its financial statements on the cash receipts and disbursements basis. On this basis revenue and the related assets are recognised when received rather than when earned, and expenses are recognised when paid rather than when the obligation is incurred.**
- **In our opinion, the financial statements give a true and fair view of the assets and liabilities arising from cash transactions of at and of the revenue collected and expenses paid during the year then ended on the cash receipts and disbursements basis as described in Note X.”**

Cash System

- **Revenue** - In case, revenue has not been received in cash, however, TDS made and deposited by the payer, in that case, revenue shall be recognised equivalent to the amount of TDS.
- **Borrowing:**
 - Interest on Loans - to be paid
 - Capitalisation of borrowing costs shall commence when expenditure for acquisition, construction or production of a qualifying asset is paid & all activities necessary to prepare qualifying asset for its intended use or sale are in progress.
 - Borrowing costs paid after substantial completion of all activities necessary to prepare qualifying asset for its intended use or sale shall be expensed off.

Cash System

- **Depreciation** - Recognise depreciation and impairment of assets as expense in PL so that the periodic net result of operations of the entity reflects the use of the asset.
- **Inventories** - Difference arising on valuation of inventories at lower of cost and net realisable value, shall also be recognised in the PL.
- **Taxes** - Tax paid for FY shall be recognised as expense in PL. In case, entity has paid tax more than current tax for FY, and it is reasonably certain that additional tax paid will be received as refund, then it shall expense off amount in PL to the extent of actual current tax and recognise the balance amount as 'tax refund receivable' in the B/s
